## SHAPER AND MOLDS

—◆————◆—

Maqpratic is structured to provide you with full consulting services on custom-made matrix mold projects for the food industry, designed to fit your business needs..

Our aim is to offer low-cost, easy-to-operate products, exceeding our customer expectations, who seek the standardization of their snack foods, an increased production, as well as expertise in preparing their pastry.

Relying on our market knowledge, with over 40 years of experience in the food industry sector, our company is constantly expanding its range of products, aiming at our customer's quality, security, and higher profit-making edge.

Our manufacturing process is not geared towards batch production, since it is carried out through the analysis of the orders, on an individual basis, and the budget being estimated accordingly.

Hence, considering that each order must undergo a budget analysis, we do not have fixed-price table. Yet we do provide you herewith with price tables on a general basis.

## MANUAL MOLDING MAQPRATIC APPLIANCES

Maqpratic molding appliances have been developed to meet our customer's requirements, delivering fine quality products, which have underwent multiple testing in order to achieve excellence in molding of your pastry.

Maqpratic appliances are manufactured with nontoxic, certified food grade material, consisting of solid polymer plates and stainless ends, imported from Germany.

Tailored and manufactured to have a long life span, it is easily cleaned up under current water and dishwasher safe, as well.

Maqpratic molding appliances can only work using molding matrix units, which are sold separately.

## Molding unit **M22**

The molding appliance model M22 is our standard Maqpratic machine.

Having a free area of up to 20 cm wide, the M22 offers you the working option of different sizes and models, whether you are planning a cocktail party (mini) or just a snack food.

The ideal appliance for those wanting to interchange the molding units and to save on their investment.

## Molding unit **M25**

The molding appliance model M25 is our special design model.

Quite a few molding units with unique measures are created on a daily basis by our Maqpratic team. Just in case your product exceeds the size of 20 cm wide – which is supported by the model M22 – then this is the right appliance for you.

## Molding unit **M35**

The molding unit model M35 is the Double-based Maqpratic Appliance.

Especially designed for savory light meals, this molding unit can produce two molds simultaneously, thus ensuring a higher productivity for your business.

It supports molds up to 15.5 cm wide, on each side of the base.

## SINGLE INTERCHANGEABLE MOLDING UNITS

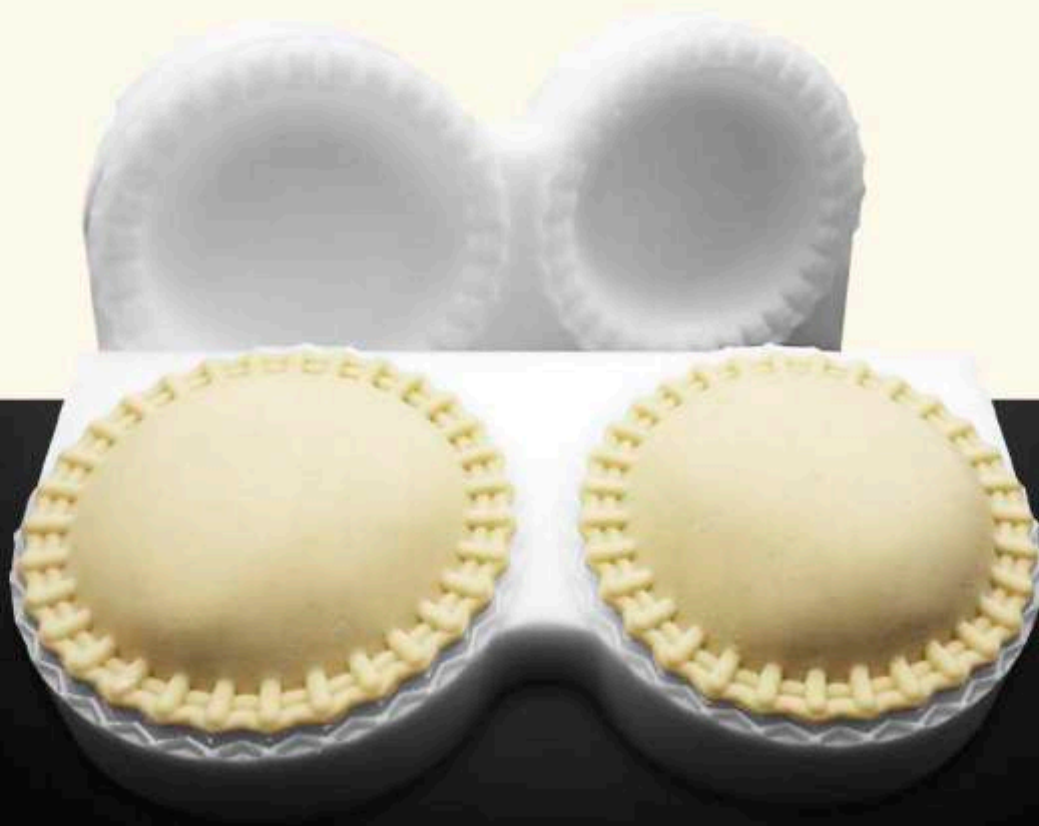

Maqpratics develops the most varied types of molds and, having acquired your own molding appliance, you will be able to purchase other assorted molds of your choice, which fit in the same appliance.

Maqpratic welcomes its customers to freely submit their ideas to our designers, so that a made-to-measure molding unit can be manufactured according to our client's specifications.
